Requirement ID	Description	Story Points	Priority	Sprint No.	Notes:
1	Display start screen that prompts the user to play	5	1	1	Base template
2	Create window and main game loop	5	2	1	
3	Load word list from a local txt file	3	3	1	
4	Select a random target word of a given length	2	4	1	
5	Draw game board grid with 5 guess rows	8	5	1	
6	Prompt the user to enter a guess	1	6	1	User input
6.1	Display typed letters in the current row as the user types	5	7	1	
6.2	Support backspace to delete the last typed letter	3	8	1	
6.3	Submit a guess with the Enter key	2	9	1	
6.4	Reject incomplete guesses with an error message	2	10	1	
7	Evaluate a submitted guess against the target word	5	11	1	Matching
7.1	Color tiles green for correct letter in correct position	3	12	1	
7.2	Color tiles yellow for correct letter in wrong position	3	13	1	
7.3	Color tiles grey for letters not in the word	1	14	1	
8	Detect a win when the guess matches the target word	2	15	1	Win screen
8.1	Display win screen after a correct guess	3	16	1	
8.2	Offer retry option on the win screen	2	17	1	
9	Detect a loss when all guesses are used	2	18	1	Lose screen
9.1	Display lose screen that reveals the target word	3	19	1	
9.2	Offer retry option on the lose screen	2	20	1	
10	Reset game state and pick a new word on retry	3	21	1	Main loop sequence
11	Add difficulty selection screen	5	22		Difficulty feature
11.1	Build separate word lists for each word length	3	23		
11.2	Change target word length and grid size based on selected difficulty	5	24		
12	Create score calculation system	2	25		User score
12.1	Award points for each correctly placed letter	2	26		
12.2	Award bonus points for winning in fewer guesses	2	27		
12.3	Display the current score on the game screen	3	28		
13	Add vowel hint button that reveals which of A, E, I, O, U are in the word	5	29		Hint feature

13.1	Limit hint use to once per game	2	30		
13.2	Apply a score penalty when the hint is used	2	31		
14	Record the results of each completed game	1	32		User stats
14.1	Prompt the user to enter their player name	3	33		
14.2	Record the number of guesses used in each game	2	34		
14.3	Record the score earned in each game	2	35		
14.4	Record the difficulty level played in each game	2	36		
14.5	Save game records to a local file so they persist between sessions	3	37		
14.6	Build personal statistics screen showing games played, win rate, and average guesses	5	38		
15	Create leaderboard ranking games by score	5	39		Leader Board
15.1	Break score ties using the fewest guesses	2	40		
15.2	Build leaderboard screen showing player name, score, guesses, and difficulty	3	41		
16	Create VS mode where two players alternate guesses	3	42		VS mode
16.1	Prompt both players to enter their names in VS mode	3	43		
16.2	Alternate turns between players in VS mode	5	44		
16.3	Show whose turn it is on the VS mode screen	3	45		
16.4	Declare the first player to guess the word the VS mode winner	3	46
